

Amendments to the Claims

Please replace all previous claims with the claims listed below.

We claim:

1. (Currently Amended) A medium-voltage switchgear assembly having an insulated gas filled enclosure and at least one switch disconnector, characterized in that the switch disconnector is in the form of a three-position vacuum switching chamber including an electrically conductive edge board that extends radially outwardly and includes an integrated annular seal that engages an outer surface of said gas filled enclosure, wherein said disconnector forms the bushing leading from the inside of [a] said gas filled enclosure area to a location external to the outside of a said gas filled enclosure area.
2. (Cancelled)
3. (Cancelled)
4. (Cancelled)
5. (Previously Presented) The medium-voltage switchgear assembly as claimed in one of the preceding claims, characterized in that the three-position vacuum switching-chamber includes a cast-resin body to form an integrated cast-resin bushing.
6. (Cancelled)
7. (Cancelled)
